"I am a 22 year old female. I wanted you to know that I was feeling no hope that anyone cared to respond to my letters. I almost gave up. I was feeling lonely and that no one gave a damn about an addict in jail. Then I received your letter today. It brought me peace and joy."

"Thank you for responding to my letter. I can't believe that after all these years of me sending out letters to different NA Groups around the world, you are the only one to write, and for that I am forever grateful."
